To whom it may concern:

Birthright Wellington Inc is a not for profit social agency which works with families led by one person. Social workers provide advocacy, referrals onto other agencies, adult and children self-esteem programmes, budgeting and practical assistance.

Since November 2014, KCA has provided practical assistance and food parcels to our social workers when they identify a need within a family. This assistance has come in the form of food, clothing and household items. Budgeting and prioritising their needs is more effective for clients, when there is concrete assistance available. The assistance enables them to make progress and move forward with their lives.

KCA has an efficient and reliable ordering system. Orders are generous, clean and tidy.

The KCA model is one of sustainability, for both benefactors and consumers of the service. It enhances the family's well-being and is essential to the work we provide for families.

Please do not hesitate to contact me if you feel I can provide any further feedback.
