Thank you so much for your kind donation of cat food.

Outpawed Rescue Trust is dedicated to the welfare of community and stray cats abandoned in the Wellington region and Palmerston North. Outpawed like so many rescue organisation has noticed an increase in the number of requests for assistance, most recently due to the cost of living. Although Outpawed Rescue does fundraise to support the many cats and kittens in its care, 2023 is proving to be a difficult year. Some of our cats have needed specialist veterinary car

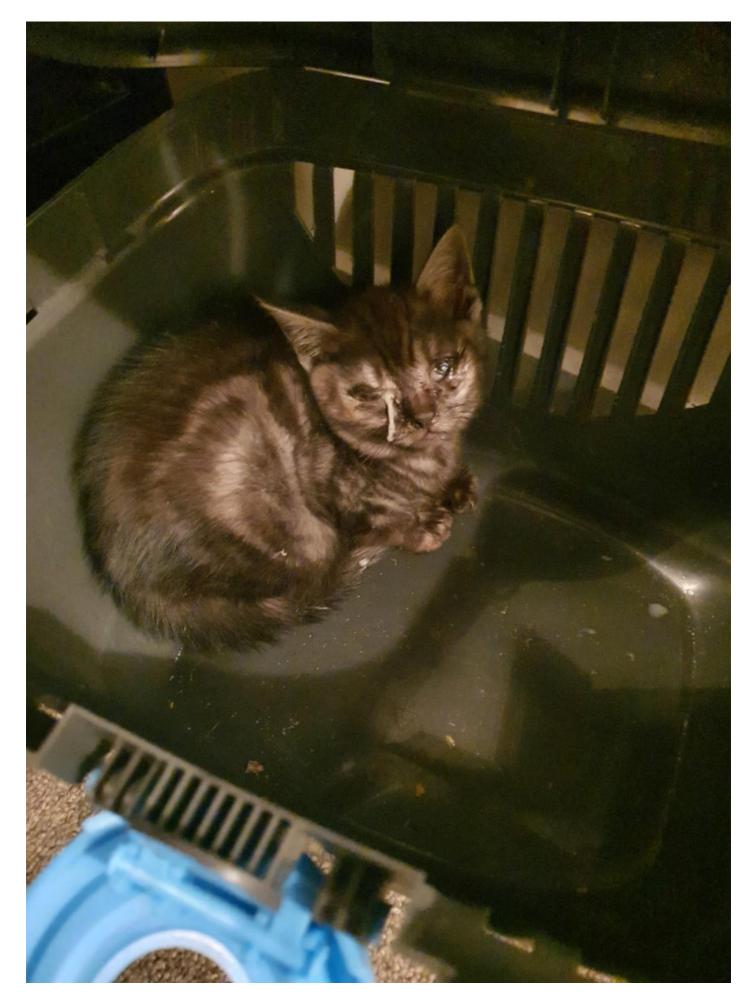

Sadly, even with specialist care we have had to make the sad decision, to allow them to go onto their next journey, across the rainbow bridge.

Your donation of food is very much appreciated and is being distributed to assist the cats in our care who are either in foster placement, or cared for by a dedicated caretaker overseeing colony of cats that have been 'TNR' (trapped, neutered and returned).

Please find attached photos of our reduced cats in foster home and one sickly baby who was picked up this Saturday
