Tracy Wellington,
Kiwi Community Assistance,
Tawa

Dear Tracy,

I wish to acknowledge the tremendous support that the volunteers at Kiwi Community Assistance (KCA) have provided over many years to the work undertaken by the Newlands Community House Inc.

The Community House supports the needs of residence in the Newlands and Paparangi suburbs through the supply of food and essential services.

Without the generous support from you and the volunteers and your Sponsors at KCA, the Newlands Foodbank would have limited capabilities to provide assistance to the people needing help in these trying times. KCA have access to products that we would be unlikely to be able to source or afford without their supplying them to us.

The range of product supplied by KCA including milk, eggs, frozen meals, bread and fresh produce has allowed us provide nutritious and healthy food parcels to our customers.

The support of all the volunteers associated with KCA is much appreciated by all the Committee members who have contact with them, and I personally have always found the volunteers to be helpful to the wishes of the clients.

The work undertaken by volunteers is at times not fully recognised but the work undertaken by the KCA volunteers is a true reflection of the importance of volunteers to an organisation.

Again, thank you and all your volunteers for the tremendous support of the Newlands Community House Inc. over many years.

Yours In Community Service

Ray J Good
Chairperson.
