

WELLINGTON

nurtured ~ resilient ~ inspired
children & families

20th September 2018

Dear Tracy and the team at KCA,

I just want to acknowledge, from myself and all the team at Birthright Wellington, what a wonderful job you do for our service and our clients.

The difference it makes, as a social worker, to be able to access much needed practical assistance for our clients is unimaginable.

There is nothing more disheartening in this job than to see a parent struggling to provide necessities for their children. For clients, budgeting and prioritising their needs is so much more effective when there is concrete assistance available. They can see themselves making progress.

I am always impressed by the hard work put into selecting the appropriate goods from our orders. Clothing and bedding is always clean and tidy and extra consideration is given to the individual's needs. The quantity is always generous.

Your ordering system is efficient and reliable.

From a personal point of view, I love the fact that in this age of consumerism, your model of assistance highlights sustainability. This is great for both benefactors and consumers of your service and is providing great role modelling.

So please accept Birthright Wellington's most heartfelt appreciation for all the hard work the you and you Volunteers do.

So again, many thanks from me and the rest of our team

Barbara Goosey
Social Worker
