We are very grateful for the continuing support that our Porirua and Tawa foodbanks receive from Kiwi Community Assistance and their supply partners. KCA do an amazing job coordinating and distributing perishable and non perishable food items to organisations such as ours.

Our clients benefit from the regular fresh produce we get each week and we are grateful for the extra essentials such as milk powder, meat, bread and pantry items and personal hygiene products. Our ladies particularly appreciate the dignity offered by the access to feminine hygiene products.

With many families and individuals experiencing hardship due to tough economic times we look forward to our continuing relationship.

Thank you so much to Tracy and her team for the work they do.

Regards

Vicki Truijens
