Dear Tracy and KCA volunteers

Whare Manaaki Inc. (Porirua Women's Refuge) would like to extend our thanks to you. We are the grateful recipients of your continued hard work in our community.

Whare Manaaki Inc, utilizes your service on a weekly basis and we are very appreciative of your support for the women and children, both in our safe house and in the community.

The ability to provide our women and children with household items in situations where they are unable to do so themselves is a huge support and encouragement to our clients. They are able to begin to build their independence with the help of your donations.

The access to quality food items including fresh fruit and vegetables via your food rescue program is invaluable. Through this programme children and women have access to products and fresh fruit when they most need it.

The professional administration of your organisation ensures our clients are always well catered for. The strength of KCA shows in the support you have gained in the community with your volunteers and donations you are provided. Your aim to reduce the effects of poverty or disadvantage in Porirua area is truly seen in the way that you support our organisation and clients.

We hugely value your continued support, we can assure you so do our clients.

Yours sincerely

Staff and Volunteers
